

RECREATIONAL TRAILS PROGRAM  
Project Development and Environment (PD&E) Study  
DATA SHEET

The following information is necessary for filing of the environmental documentation as required by the Florida Department of Transportation (DOT) PD&E Manual to meet National Environmental Policy Act (NEPA) and Federal Highway Administration (FHWA) requirements.

Return the completed Data Sheet and requested supporting documentation to the Office of Operations. **Attach additional sheets as necessary.**

Project #:

Project Name:

Project Location: (include trail termini or facilities locations/park site, city, county, etc.)

1. **Provide Project Location Map.**  
**Illustrate Project Location and highlight the Project Area (i.e. the trail project, trailhead, etc.), with the beginning and ending points. Use a U.S. Geological Survey (USGS) 7.5 minute quadrangle sheet. The map must be legible, have a scale, and may not be larger than 11 x 17.**
  
2. Describe the general land uses in the project area.
  
  
  
  
  
  
  
  
  
  
3. Are wetlands within 500' of the project area? Use the U.S. Fish and Wildlife Service National Wetlands classification system as the standard for identification.

RTP Grant Project PD&E Data Sheet  
Page Two

4. Is the project in the base floodplain or involve a regulated floodway? If yes, identify the category, i.e. 1 thru 5. If not, please complete the non-involvement form.
  
5. Provide a copy of the plant, animal and wildlife habitat inventories for the project area. Primary interest is identification of Federally Endangered and Threatened Species, Species of State Concern and specific critical habitat. [this may be found in the site's unit management plan, resource management plan or similar document]
  
6. Is an outstanding Florida Water, as identified in Section 62-302.700, Florida Administrative Code, in the project vicinity? If yes, identify.
  
7. Identify any Aquatic Preserves in the project vicinity. If there are not, please complete the non-involvement form.
  
8. Identify any known cultural resources within a 1/2 mile radius of the proposed project boundaries. Include any sites listed on the National Register of Historic Places as well as those eligible for the listing. In addition,
  - submit a single copy of any cultural resource assessments, field surveys, Master Site File (MSF) listings, or the like completed concerning the above mentioned area
  
  - submit a copy of the cultural resource component of the agency's site unit management plan
  
  - **submit documentation from the Florida Department of State, Division of Historical Resources, Compliance and Review Section of concurrency.**

9. Does the project involve a navigable waterway? If yes, identify.[If yes, you will need to obtain a U.S. Coast Guard permit]
  
10. Is the project located within the boundaries of a river listed in the Southeastern Rivers Inventory? If yes, identify.
  
11. Identify any known or potential contamination sites within the vicinity of the project site. List known generators by industry and commercial type.
  
12. Identify any potential project involvement with a principal or sole source aquifer.
  
13. Will the project, or resulting increased user activity, cause noise levels to increase?

If yes (check one):  negligible     noticeable     greatly

If applicable, submit a copy of any noise surveys, include results of desk-top reviews or computer modeling completed concerning the project area

14. Are, or will there be in the foreseeable future, any noise sensitive receivers in the project vicinity? If yes, describe.

15. Does project have potential to cause direct or indirect effects on the air quality environment? If yes, describe.

If applicable, submit a copy of any screening tests, desk-top reviews or computer analysis completed regarding air quality impacts in the project area and vicinity.

16. List all potential permits required to proceed with the project. Please indicate if these permits have been secured.
